

The International Brain Bee

... be a part of something extraordinary

To: Bolor Gantugs

The International Brain Bee (IBB) is the world's premier neuroscience competition for teenagers with the goal of motivating students to learn about the brain and to encourage them to pursue careers in neuroscience or medicine. It was founded in 1998 and has grown to over 50 countries around the world. The annual IBB World Championship brings together national Brain Bee champions from across the globe for an important educational and cultural experience.

On behalf of the International Brain Bee (IBB), I am pleased to confirm that the Mongolia Brain Bee has been accepted as an official affiliate of the IBB, and acknowledge your role as National Coordinator. We look forward to working with you.

Thank you for your leadership in support of the Brain Bee initiative in Mongolia.

Best regards,

Astrid Eberhart
Executive Director, International Brain Bee
